

JVC BEST DYNAMICS N-SERIES ON SCREEN

“ a fantastic projector for the money. Its native 4K talents are a revelation. ”

“ the best projected HDR we have seen to date. ”

“ adds a new approach to HDR which actually really works...we feel the NX9 is best in its class at this market point. ”

- Best for detail: True 4K (4096x2160) res means half a million more pixels and higher brightness than UHD 4K
- Best for contrast: acknowledged D-ILA deep contrast performance
- JVC's Auto Tone Mapping function for optimum HDR image
